

Measurement and Analytical Solutions for Water and Water-Related Markets in the Field and in the Laboratory.

Gas Detection

- Confined space entry
- Fixed gas detection
 - Methane
 - H₂S
 - Oxygen
 - Chlorine
 - Ozone
 - More

Sampling & Flow

- Non-contact laser
- Submerged doppler
- Ultrasonic
- Samplers & storage
 - Fixed
 - Portable
 - Collect & preserve

TOC/VOC

- Municipal water
- Semiconductor grade
- EPA Purge & Trap
- Sample concentration
- Gas chromatography
- Exceptional
 - Precision
 - Throughput
 - Durability

Acoustic Doppler Current Profilers

- Flow measurement and discharge applications in the inland environment
- Moving boat
- Section by section
- Continuous measurement

Process Ozone

- Industrial process ozone analyzers
- UV absorption
- NIST traceable
- Continuous and portable versions

Universal Txmtrs

- Single or dual channel
- Liquid analytical
 - pH
 - ORP
 - pION
 - Free and total Chlorine
 - More
